---	---

Due to our state-of-the-art, high speed colour dispensing system, our range of water-based products is available in a vast spectrum of colours in pastel and bold shades.

This colour range specifier shows our range of standard colours for the water-based range, referred to as the 2000 series, 3000 series and the 4000 series.

Alternatively, if you would like us to match our coatings to another colour of your choice, a special colour matching service is available at an additional cost. Please contact our sales offices, your local area manager or distributor for details and prices for our 5000 (pastel) and 8000 (bold) colour series.

Information

Please note: When ordering your colour choice, please ensure you quote the four digit reference number in **bold**.

All products are available in black.
Decothane HS is not available in white.
Monolastex Textured is only available in white and magnolia.
Please refer to our price list for minimum quantities.
Please refer to our separate colour chart for Isoclاد PCM.
Please refer to our separate colour chart for the flooring range.

Important

Whilst every care has been taken in the printing of this leaflet, the colours are only as accurate as the printing process will allow.

Please use the following key for reference to items which are available ex stock.

- Stocked in:**
- D Decadex
 - F Firecheck
 - H Hygiene Range
 - I Isoclاد
 - M¹ Monolastex RE
 - M² Monolastex Smooth
 - M³ Monolastex Textured
 - S Silcabond SP

The following products are available in the 2000 Series range of colours:
